

The Four Cardinal Organs

The Human Journey
from
Macrocosm to Microcosm
with

Patrics Orange - Eurythmist
&
Lakshmi Prasanna - Physician

Lakshmi and Patrics have been offering a series of popular workshops over the last 4 years, unlocking the secrets embedded in our human physiology.

The wisdom of our physiology shows us an example of a profound collaboration of cosmic proportions!

Anthroposophy gives us a pathway to explore and mobilise experiences through which we can arrive at an understanding of the spiritual nature of the human being.

Patrics' and Lakshmi's unique way of collaboration creates an atmosphere of 'action research'. The workshop provides an opportunity for exploration through the presentations, movement, eurythmy and conversations.

No previous experience is needed,
and suitable for anyone who is interested in life and its many mysteries!

Saturday 18th February 10am – 4pm
and

Sunday 19th February 9am – 2.30pm

Tarremah Steiner School
27 Nautilus Grove, Huntingfield
Tasmania
