

AAMA AGM WEEKEND 2014  
School of Spiritual Science – Medical Section of Australia - AAMA  
17-19 October 2014 - Sydney

**“The human being, the medical task, and  
what ails and inspires us to bring our work to life”**

This weekend workshop will take us on a journey of understanding ourselves as human beings; our earnestness for connection to the Spirit that underlies our medical work; obstacles within us and within natural scientific thinking – doubt, fear, antipathy, rejection; and inspiration for the work.

It is informed by Lessons I and II of the First Class, School of Spiritual Science.

At our AGM, we will explore where we are, where we have been, and where we are going!

Registration from 6pm-7.30pm Friday evening, 17 October, 2014.

Friday Evening Lecture: 7.30pm

**“The human being and medicine – the task for anthroposophic medicine practitioners in relation to nature, natural science and the world of the spirit”**

(Dr Simon Bednarek - *This lecture is open to the public*)

Conventional, natural and anthroposophic medicine - What is our intention, what will assist us to fulfil it? What hindering and undermining forces lie within us, individually and collectively – doubt, fear, antipathy or rejection? What challenges do we meet in creating a bridge between the natural scientific world and spiritual science in the medical arena? Earnestness, inspiration and hope with regard to the development of wellbeing – how can we build our connection to the spiritual world in our work?

**Saturday**

8.30 am – Therapeutic eurythmy (Karen Foster)

9.15 – Small group work – BRAVERY, FEAR AND HOPE

How do these manifest in us and in our work. How do we develop the will to create the world of healing out of spirit? How do we meet the differing perspectives between the natural scientific world and spiritual science in the medical arena?

10.30 – morning tea

11.15 – Small group work – ENTHUSIASM, LOVE AND ANTIPATHY/REJECTION IN THE HEART REALM

Where do we encounter enthusiasm, love or antipathy/rejection for the spiritual in our work? What is the relationship between enthusiasm, love, and antipathy in our heart/feeling realm? How does this manifest in and affect our work? Is work related depression, burn-out, withdrawal, and other inner difficulties a sign of, or due to, lack of enthusiasm and love for our work, individually and collectively?

12.45 – Lunch provided

2.00 – Small group work – TRUST AND DOUBT

How does doubt in spiritual science affect our relationship with ourselves and the spiritual beings? What do we need to overcome in our medical healing work? How can we develop and maintain trust in the face of criticisms from material science?

3.15 – Afternoon tea

3.45 - AGM

5.00 – Reports

6.00 – Evening meal provided

7.30-9.00:

Saturday evening lecture: Lisa Devine

**“Understanding Health and Illness. Staying conscious through the healing crisis and in our work”**

(Workshop participants only)

## **Sunday**

8.30 am – Eurythmy

9.15 am - Large Group work:

How do we maintain ourselves in our work and deepen our connection with the spiritual realms?

10.30 - Morning Tea

11.15 - Review and Summary.

What do we take with us, where do we go from here?

Close – 12.45

12.45 – Lunch (soup and rolls, provided)

## **Venue –**

2<sup>nd</sup> floor, Steiner House, Sussex St, Sydney
